

Acid Neutralizer and Solidifier

AcidZorb is the **GREEN** alternative to cleaning up harsh chemicals and acids. It quickly neutralizes and dries most liquid spills without the vigorous chemical reaction, even sulfuric (H_2SO_4 ; 10% & 50% concentration) and hydrochloric (HCl; 10% & 20% concentration).

1. Apply AcidZorb directly to the spill.
2. Use a broom to make sure all the liquid is absorbed.
3. Cleanup and dispose per local, state and federal regulations.

TYPICAL DRY NEUTRALIZER
(Note the violent reaction)

ACIDZORB
(Much less physical reaction)

CAUTION should always be practiced when cleaning up chemical spills!

Recommended Use

For 32oz. spill

ACID/Con.% by Wgt.	Use ACIDZORB by lbs.	Use ACIDZORB by oz.
Hydrochloric/10	0.81	17
Hydrochloric/20	0.94	20
Sulfuric/10	0.96	20
Sulfuric/20	2.74	56

Available Sizes

30 gal. Drum

5 gal. Bucket

6 lb. Shaker Bottle
